

School Library System and CI&A present
LEAP OF FAITH: TAKE THE PLUNGE INTO A 21ST CENTURY
CONCEPTION OF LEARNING

Presented by
ALLISON ZMUDA

“A 21st–century conception of learning is much more than adopting new skills and integrating them into the curriculum of purchasing new technology and placing them in classrooms---it is the fundamental shift from a teacher-centered learning environment to a student-centered one.” Zmuda

- **How do school leaders foster the 21st Century skills of critical thinking, problem solving, collaboration, effective communication and global literacy within our schools?**
- **How do teachers work with students to ensure that they share responsibility and ownership of their learning?**

Join us as Allison facilitates a strategic planning session on these key questions!

About Allison Zmuda: Allison’s focus is to help every educator create a competent classroom – a learning environment where all participants believe it is possible to be successful – in which the expectations of teachers and students are challenging, feasible, and worthy of the attempt.

Allison works with the **Association for the Supervision and Curriculum Development** as a Faculty member in the Understanding by Design cadre. She is the author of *Transforming Schools: Creating a Culture of Continuous Improvement* and *Librarians as Learning Specialists*.
